Know Your Own Power[®]

WHAT IS A CEA?

It is an in-depth assessment that a contractor will perform on your home using the latest in diagnostic testing.

When it's done, you'll have a list of recommended improvements to increase your home's energy efficiency all year long, saving time AND money.

Thermal imaging camera used to measure heat differences between surfaces indicating where heat gain/loss is occurring in a house.

I WANT A CEA!

\$100
OFF

Get started with three easy steps!

- 1 Find a participating Building Performance Institute-certified contractor by visiting dteenergy.com/eed.
- 2 Schedule a CEA and tell your contractor about this offer.
- 3 Give promo code **CEA2017** to your contractor and get **\$100** off the cost of your assessment!

MY CEA IS COMPLETE!

What do I do next?

Take the whole-house approach by performing the upgrades recommended from your CEA!

The more upgrades and energy-efficient improvements you make, the more rebates you're able to obtain through **DTE's Home Performance Program**.

Don't let unpredictable weather make you uncomfortable in your own home - be prepared and get started today!

Learn more at dteenergy.com/hprebates or call **866.796.0512**.
