

Renee Tomina

Senior Vice President, Major Enterprise Projects
DTE Energy

Renee Tomina serves as senior vice president of Major Enterprise Projects for DTE Energy. She is responsible for leading the project management, planning and execution of the company's largest initiatives, including the construction of DTE's new renewable energy projects, and projects in Power Generation, Distribution, Renewable, Nuclear and Gas Midstream platforms.

Tomina has been with DTE Energy since 2010. Prior to her current role, Tomina was vice president of DTE Gas where she was responsible for managing utility gas operations, including construction, distribution and planning of DTE's natural gas pipeline system within applicable federal, state and local regulations. In her role, Tomina lead the improvement of the operational systems, processes and policies to ensure a high level of system integrity, safety and performance. She has also served in leadership positions in a number of areas including Continuous Improvement, Customer Service, and Electric and Gas Operations. Prior to joining DTE, she worked as a manufacturing lead in the automotive industry.

Tomina earned a Bachelor of Science degree in electrical engineering from Lawrence Technological University and a Master of Science degree in systems engineering from Oakland University.

Tomina is an active member in the American Gas Association, supporting the industry, and is active in efforts to improve the community.

She, her husband and their three children enjoy traveling and are members of the autism family.
